

The 14th Demo Trading Contest

1st place — Gennadiy Doroshkevich

We congratulate you on the 1st place in the 14th Demo Trading Contest and would like to ask you the following questions:

Please tell us a bit about yourself.

I am 44 years old and I come from Minsk (Belarus). I have a higher education, I am a manager by profession. I am temporarily unemployed. My hobbies comprise football, watching various sports programs.

How long have you been trading Forex?

I have been trading Forex on a real account for about 5 years, but there is nothing special to boast about.

How did you find out about the contest run by the Company Real Trade? Did you expect the victory?

I have found out about the contest through the search engine. I participated in this contest for the first time and frankly I did not expect the victory, I did not even hope to be a potential winner. I have won earlier as well, but these were calmer and longer contests (there were at least lot size restrictions).

What is your trading during the contest based on?

My trading is mainly based on a technical analysis without Expert Advisors.

What strategy do you prefer – a long-term or a short-term? Why?

Since I lack patience I prefer a short-term trading.

What currency pair do you prefer to work with? Why?

I prefer trading my favourite pairs EURUSD, USDJPY, but all in all I trade 15 currency pairs.

What kind of means or methods do you use in order to gain knowledge about Forex market? What would you like to advise beginners?

Earlier I used to read books, visit courses, but now mainly I use Internet sources and my personal experience. I know from my own experience that it is extremely difficult to close unprofitable position and lose money if you do not use Money Management principle. Discipline is keystone to success!

Thank you for answering our questions and good luck in your trading!
